LIGHTBLASTER 616 LED

LED STROBE LIGHT WITH 616PCS OF 0.5W PURE WHITE (6500K) LEDS

LIGHTBLASTER 616 LED is a high btightness Strobo light that combines reliability, lifespan, and brilliance of the Pure White LED chips (6500K) with the very low power consumption compared to traditional Xenon lamps. The beam angle is 120° but, thanks to the supplied barn-door (removable), it is possible to reduce it to 0°. Its light source consists of 616 high-brightness long-lifetime 0.5W LEDs. Color Temperature is Pure White (6500K). The electronic dimming control offers 5 different curves, to adapt this fixture to any type of use. The internal temperature is controlled by sensors that, in case of overheating, lower power to 50% and adjust cooling fan speed. The result is a powerful yet extremely silent strobo-light. Not only, but the robust ABS housing makes it lightweight, durable and with an excellent value for money.
