

## CHECKLINE-12A

# 12" BI-AMPED COAXIAL STAGE MONITOR WITH BUILT-IN DSP

CHECKLINE Coaxial Stage Monitor Series is the answer to those rental companies, sound engineers, and bands who need robust, elegant, and handy tools on the stage, but without giving up on high-performance and sonic quality. All three models of the series offer full-range coaxial woofers. The Bi-Amp module delivers 350W (RMS)/ 1000W (Peak) power with absolute sound clarity and reliability. The internal DSP ensures maximum dynamics, overloads and overheating control, and offers 2 EQ factory presets (Full-range, Monitor) and other 5 user-defined, with different equalization curves designed for all main applications. Whether they are used as monitor, full-range speaker, front fill or delayed speaker for indoor/outdoor applications with large dimensions, the CHECKLINE series is the perfect ready-to-use solution for audio professionals.
