# TRUE DIVERSITY DUAL WIRELESS MICROPHONE SYSTEM WITH 2 HANDHELD MICROPHONES 630-660MHZ

WF-U2302 is a dual UHF **True Diversity** professional wireless microphone with 300 channels for each microphone, and a simple and intuitive user interface.

“**True Diversity**” means that the receiving system is equipped with two antennas, two receiving circuits and a device capable of continuously choose the stronger and interference-free signal. This technology is used for both single systems (WF-U1300 Series) or dual systems (WF-U2302).

The WF-U2302 is built with leading technology that allows the integration of many of the major functions - such as amplification section, digital signal processing, PLL (Phase-Locked Loop) frequency synthesis, and more - into a single CHIP. This allows us to offer highly professional performance yet cost-effective products.

The WF-U2302 is also equipped with the automatic frequency search system and IR sync system for channel synchronization between receiver and transmitter in a quick way. Furthermore, the Digital Pilot Technology not only allows to monitor reception level and battery charge, but even to operate with multiple systems without problems.

Finally, there are two optional kit for rack mounting of 1 or 2 receivers, respectively, on 1 or 2 standard 19” rack units. Ask your dealer or visit SOUNDSATION website [www.soundsationmusic.com](http://www.soundsationmusic.com) for further details.
