

## OMEGA-300 RGB

# SISTEMA LASER GRAFICO RGB COMPATTO

SOUNDSATION OMEGA-300 RGB is a new Class 3B professional graphic laser projector based on state-of-the-art technology. It features high-quality LED RGB laser emitters that produce bright laser beams and smooth patterns. LED panel menu, and the handy remote control make this fixture extremely easy to program and convenient to use. It is the right choice for all those musicians, DJs and small rental companies who need a reliable and versatile instrument for graphic laser effects.
